Objective:

I am an enthusiastic and motivated recent graduate seeking an entry-level position where I can apply my academic knowledge, problem-solving skills, and eagerness to learn in a dynamic work environment. I am committed to contributing to team success while gaining hands-on experience and developing my professional skill set.

Projects:

SQL - Student Enrolment System:

- Developed an SQL database to monitor student enrolment, course offerings, and academic progress.
- Designed relational tables and formulated queries to produce comprehensive reports for academic advisors. joins sub-queries, and indexing to enhance query performance and efficiency.

Microsoft Power BI - Sales Performance Dashboard for Blink-it:

- Developed a Power BI dashboard for Blink-it, a grocery delivery app, providing real-time insights to optimize decision-making.
- Designed filters (outlet type, location, size, category) for targeted data analysis.
- Visualized key metrics: total sales, average sales, items sold, and purchasing patterns.
- Conducted tier-based and geographic sales analysis with color-coded performance indicators.
- Implemented a time-series analysis of outlet growth for strategic location planning.
- Enhanced sales breakdown by outlet size and type to inform inventory and marketing strategies.
- Used conditional formatting and interactive charts (donut, bar, line) for a user-friendly interface.

University Projects:

Employee Monitoring System using Face Recognition Techniques:

- Employee Monitoring System Using Face Recognition Techniques
- Developed to address remote work, especially during the COVID-19 pandemic
- Utilizes deep learning and real-time image analysis.
- Surpasses conventional monitoring systems with Haar Cascade face detection technology.
- Detailed technical intricacies, data collection methodologies, and preprocessing techniques
- Includes a user-friendly web application.
- Anticipated positive impacts on remote work monitoring processes.

Skills

- | | |
|---|---|
| • Languages: Python, SQL. | • Other Skills: Data Cleaning, Reporting. |
| • Data Analytic Tools: Excel, Tableau, Power BI. | • OS: Windows, Linux Administration (centos). |
| • Data Processing & Analysis: Pandas, Numpy | • Cloud: AWS |
| • Visualization: Power BI. | • Soft Skills: Creativity, Adaptability, Problem-Solving, Inter-Personal Communications Skill. |
| • Databases: MySQL. | |

Education:

- Bachelor of Technology in **Computer Science & Engineering** with **CGPA: 8.0** from **M. S. Ramaiah University of Applied Sciences** (2020-2024), Bangalore, Karnataka.
